

J&M Locksmith Now Stocks All Major Brands

January 16, 2017

January 16, 2017 - PRESSADVANTAGE -

J&M Locksmith offers a range of products and services which include well-known brands which are known and trusted. The list of brands includes Kwikset, Schlage, Arrow, Baldwin, Amsec and Gardall Safes.

Atlanta GA: J&M Locksmith is pleased to announce that its product inventory now includes many of the best-known brands in locks and other security devices. The products include desk keys, file cabinet keys, motorcycle keys, office keys and house keys. Brands such as Schlage, Amsec, Kwikset and Baldwin are available to customers who have need of products associated with a door or lock. Those items not immediately in stock can usually be ordered.

The professional locksmith Atlanta team can bring their knowledge and experience to customers in a variety of situations. The client who is locked out of a car, residence or place of business has the assurance of solutions and satisfaction. The automobile or house can be opened, as can the place of business. It doesn't matter where the lock-out occurs, or the time of day that the lockout happens, the locksmith team responds quickly with the equipment and skills that are needed for a solution.

According to the spokesperson for the locksmith company, "We are professionals who offer products and services for any of your lockout needs and we do so at an affordable price always. Our technicians have been servicing the security needs of Atlanta residents, property managers, homeowners and businesses for many years. The locksmith will pick the locks as necessary, and will generate keys for the most valuable possessions."

In addition to lockouts, J & M will take care of the installation of new locks, or re-keying of existing locks. The company offers high-security locks, garage door remotes and key extractions, keys broken off in locks and other security and key issues. Mailbox lockout services, keyless locks, and high-security laser keys can be cut and programmed. The response is fast and affordable when the need for security services and products is needed. The work they do reflects their high training and experience.
