

AV Chiropractic Health Center Expands Services To Palmdale, Rosamond, California City, And Mojave

June 16, 2015

June 16, 2015 - PRESSADVANTAGE -

AV Chiropractic Health Center, a Lancaster, CA based chiropractic clinic, has plans to begin offering their services in a number of surrounding communities near the Lancaster area. Palmdale, Rosamond, California City, and Mojave are invited to access this office for chiropractic needs. Those in nearby cities who are unsure as to whether or not they can utilize the AV Chiropractic Health Center services are encouraged to contact the company for more information on zoning and accessibility.

AV Chiropractic Health Center offers a number of treatments for their patients, including massage therapy, decompression therapy, brain based neurological therapy, and traditional chiropractic services. They are one of the only clinics in this area offering all of these treatments under one roof, and provide a more detailed list of each therapy on the company website.

Aside from a breakdown of the treatments and therapeutic services available through this clinic, AV Chiropractic Health Center also supplies current and potential new patients with an informative blog, payment details, promotional offers, and paperwork on the site. Their goal is to help their patients lead more comfortable, pain free lifestyles, while also making this transition as easy as possible. They treat a large

selection of ailments, illnesses, disorders, and injuries, and have said the following regarding these treatments:

"With all the tools we have at our disposal we are able to help people with a myriad of chronic conditions including chronic back pain, chronic neck pain, insomnia, restless leg syndrome, sciatica, hand or foot pain, spinal stenosis, migraines, dizziness, chronic shoulder or arm pain, numbness, fibromyalgia, RSDS, tinnitus, dystonia, carpal tunnel syndrome, diabetic neuropathy, peripheral neuropathy and chronic fatigue syndrome."

The clinic is operated by Dr. Wayne Hodges and Dr. Dave Howard who both have many years of experience in the field of chiropractic therapy. The doctors have suggested that anybody who feels any type of chronic pain in joints, back, head, or muscles should consider calling to speak with a clinic representative. The AV Chiropractic Health Center takes pain very seriously, especially when it could be an indication of a more serious condition.

Future patients are also encouraged to determine their insurance coverage before contacting the clinic, although they have made it clear that they accept almost any insurance provider. The company provides a list of acceptable insurers on their website, and suggests that those who have questions regarding their coverage, call and talk to one of the professionals on site. The team at AV Chiropractic Health Center are passionate about helping all patients, even those who may not be as financially sound as others, which is one reason they offer different specials and promotions. They explain:

"Make sure you mention our new patient free Internet special which includes your initial consultation, complete examination and any necessary x-rays, a \$265 value at absolutely no charge."

Other promotional offers can be seen at avchiropractichealthcenter.com under the Payments and Specials tab.
