

Flat Rate Prices Offered by Carpet Cleaning Las Vegas Firm

January 17, 2017

January 17, 2017 - PRESSADVANTAGE -

Superior Carpet Cleaners Las Vegas offers high quality service, flat rate affordable prices and a range of cleaning specialties. The professional team completes the services quickly and affordably.

Las Vegas NV: Superior Carpet Cleaners Las Vegas and Jason Lee are pleased to announce that the company offers flat rate price quotes to area residents. When there is a need for carpet cleaning Las Vegas home and business owners provide prompt and affordable price quotes that include every part of the cleaning project. The company has been operating in Las Vegas and the surrounding areas for more than a decade. The professionals who make up the crew for Superior are competent, ethical and fair.

According to a spokesperson for the firm, "We are available to our customers to answer questions, provide quotes and clean carpets. We also perform a range of other services, including deep carpet cleaning, upholstery cleaning and pet stain removal. Our estimates and consultation explain various cleaning projects, as well as the optimum way of handling dirt, stains and odors."

Additional services which are handled with professionalism include tile and grout cleaning, coating and grout sealing and maintenance and cleaning, as well as disinfecting and anti-microbial treatments. The services include cleaning of area rugs and Scotchgard treatment of furniture and upholstery. When vehicle carpets need to be cleaned, the company has the right experience, training and products. Both residential and commercial spaces are cleaned.

Carpet cleaning is completed through the use of various methods which remove dirt, allergens, pet stains and enhance the overall appearance of the carpet. The cleaning methods include hot water extraction, dry cleaning, encapsulation, shampooing and household process. Hot water extraction is also known as steam cleaning. The process includes heated water with a small amount of sprayed on chemicals. The chemicals are used to soften any dried debris so that it can be instantly vacuumed up. Hot water extraction is believed to be the most effective way to deep clean carpets and should be done annually, at a minimum.
