

Irina Baker Announces the Mega Video Summit Fear Busters

January 17, 2017

January 17, 2017 -
Irina Baker, M.A., a Spiritual Awareness/Wealth Consciousness Mentor with her company Radiant Mastery LLC has announced the creation of her Mega Video Summit Fear Busters: 120 Ways to Enlist the Help of the Divine Intervention When Financial Fears and Problems Drive You Crazy. It starts on January 28th, 2017.

According to the 2015 survey by the American Psychological Association, money and work are the top two sources of very or somewhat significant stress (67 percent and 65 percent in 2015, respectively.)

Unfortunately, even wealthy are not exempt from financial worries and fears. In its publication ?When Is Enough Enough? Why The Wealthy Can?t Get Off the Treadmill,? UBS Investor Watch states that ?most millionaires don?t have enough wealth to feel secure.? They also have the ?ever-present fear of losing it all.?

The Video Summit Fear Busters is for spiritually aware individuals who want to release their money fears by turning their attention to the Divine help, intervention and guidance. Irina Baker video interviews successful

leaders from various fields who have a common goal in mind: They are willing to be vulnerable by sharing their most challenging money stories and how they were able to enlist the help of the Divine and solve the challenge. The leaders also teach on where money really comes from and how to confidently get rid of terrifying money fears and insecurities.

Among the Summit Speakers are Irina Baker, Maria Serbina, Kami Guildner, Leslie Karen Hammond, Jennifer Urezzio, Kristen Robinson, Jennifer Bloome, Tom Scarda, Christine Mathieu, Eva Love, Glenn Carlson, Wini Curley, Biljana Karamehmedovich, and Pamela A. Heyen. More speakers are expected to join the Summit in the near future.

The creation of the Summit itself was a divinely inspired idea that came to Irina Baker after she had lived through and was divinely guided to share her amazing story full of terrifying money fears, Divine Guidance and miraculous outcomes.

Irina said, ?Even though we all feel vulnerable when telling our stories to the world, we know how important it is to share so others can ?stand on our shoulders? and be reminded that they are not alone in dealing with their money fears and that the Divine is doing its amazing work in supporting and helping each one of us in every situation.?

In addition to the official Guest Speakers, the Summit participants are invited to share their own challenging money stories. An individual who will share the best story will have an opportunity to be video interviewed by Irina on the last day of the Summit. Irina says, ?Even if our stories are unique, fear, anguish and pain are the same. We are all humans, and we all feel the same pain. That?s why we love to be inspired by each other because we can identify with that pain.?
