

Michael A Crist DDS, Invisalign/Orthodontics Announces Annual Splash Bash Patient Appreciation Party

June 09, 2015

June 09, 2015 - PRESSADVANTAGE -

Michael A Crist DDS Orthodontics and Invisalign, a Houston based Orthodontic/ Invisalign practice, has announced their Fifth Annual Patient Appreciation Party. The company, which is a recognized staple in the community, has made it clear that their clients come first, and are hoping to celebrate their patients and all they bring to the office by throwing their Annual Splash Bash on June 27.

The party will take place from 10am to 2pm and will provide a family friendly atmosphere to all who attend. This year the company is proud to announce that the Champions Fire Department will also be taking part in the event, and this means that there will be firetrucks on display for all children and adults who love to see these large vehicles in action. Food, drinks, games, activities, and giant inflatable playsets will be located around the clinic for patients to enjoy and participate with.

This will be the 5th annual patient appreciation party thrown by Michael A. Crist DDS Orthodontics and Invisalign, and they have made it clear that they are very excited to be sharing this special event once again with the community and all of their patients. The team at the office has said that anybody and everybody are welcome, and they hope to see some new friendly faces in the crowd.

Members of the community who have not yet received treatment from the practice can take advantage of a special offer listed on the company website for a free consultation. The clinic encourages new patients to also ask about their records special, which provides a \$129.00 discount on records if a treatment begins the same day as the free consultation.

Aside from the annual bashes thrown each year to celebrate patients, Dr. Crist is known for his work with Invisalign as a way of improving smiles without the need for metal braces. His work in this area has helped many patients of the practice, and is one reason why the office hosts their party each year. They want to give back to the community which gives so much to the practice.

The Invisalign process may not be one that is recognized by all, which is why the company website breaks it down along with a variety of other dentistry and orthodontic procedures patients may be interested in. They describe it as follows: "Invisalign uses a series of clear removable aligners to straighten your teeth without metal wires or brackets. Invisalign has been proven effective in clinical research and in orthodontic practices nationwide. In fact, over 70% of all U.S. orthodontists are certified to treat patients with Invisalign"

Michael A Crist DDS Orthodontics and Invisalign hopes to see a large turnout to this year's event, with patients of every age coming together for a fun time with staff of the clinic. Dr. Crist encourages anyone who has questions or concerns regarding the event, the practice, or any of the services available at the clinic to communicate with him and his team to call his office.
