

New Company Opens In Edmonton, Alberta, To Offer Kitchen And Bathroom Remodeling

January 19, 2017

January 19, 2017 - PRESSADVANTAGE -

Kryocon is a new company in Edmonton, Alberta, that provides kitchen and bathroom remodeling services. The company, whose website can be found at <http://kryocon.com>, offers renovation services for a number of kitchen, bathroom, and basement needs and states that they are now taking appointments for homeowners who want to discuss their requirements.

"We can help you to enjoy the home of your dreams," says Kelly Kramer with the company. "Whether you want a more senior citizen friendly bathroom or you just want to upgrade your kitchen cabinets, we will work with you to ensure that the design and budget will match your needs."

The company's new website, <http://kryocon.com>, offers a look at all of the services that they provide. They offer services to homeowners in Edmonton as well as Sherwood Park and St. Albert, stating that they have helped to remove old kitchen cabinets and install new ones, including countertops, and tile backsplashes, completely updating kitchens to look more modern for customers.

"Our customers have a number of options," says Kramer. "Aside from kitchen cabinet installation we can also completely upgrade your bathroom to give you a more modern look and feel or to make bathing safer for seniors."

Kramer states that customers can call on them for upgrades whether they want a new style or simply need additional storage or a better functioning kitchen or bathroom. The company also offers a variety of services for basements that can help turn unfinished basements into more living space within the home. Bathroom remodeling services include installation of vanities, showers, and bathtubs and the company states that they can renovate any room to add more space.

Being a new company will not deter them from offering the very best in customer service, Kramer says. "We have a reputation to build and we plan to do that by leaving all of our customers completely satisfied," she states.

Homeowners in the Edmonton area can visit the company on their official website at <http://kryocon.com> to gain more information about the variety of services that they will be offering and to schedule an appointment for an estimate.
