Smile Cliniq Earns Multiple Dental Awards

January 18, 2017

January 18, 2017 -
Smile Cliniq the multi award-winning dental practice. The clinicoffers a full range of dental treatments, including general, cosmetic and implant dentistry, as well as facial aesthetics procedures.

London UK: Smile Cliniq and Katie Milito are pleased to announce that the dental practice has been the recipient of several important awards. The Multi award winning dentists in London are noticed for their state-of-the-art dental treatments. The team of professionals provides a full range of dental procedures, including cosmetic, general and implant dentistry. The pros also offer facial aesthetic techniques in a warm and friendly environment. The dental staff is a highly skilled and knowledgeable team.

The team at Smile Cliniq are winners of best London dental practice, thanks to their wholly patient-focused ethos. Patients are provided with information about different treatment options and prices in a written treatment plan. The selected procedure is implemented in a manner that is considerate and gentle. The British Dental Association recognizes the procedures and professionals for their high standards.

According to Katie Milito, ?Regular dental check-ups help prevent tooth decay and other dental problems. During your dental consultation we will check for problems with your teeth, gums and also screen for oral cancer. Regular check-ups are important in preventive dentistry. In addition to regular check-ups (which may include x-rays) we provide a full range of dental treatments.?

The procedures which are available from the best young dentist UK are wide ranging. There are several categories including restorative, cosmetic and hygiene therapy. Restorative procedures include fillings, crowns, bridges, inlay, veneers and amalgam removal. Cosmetic dentistry techniques include tooth whitening and smile design. The professionals at Smile Cliniq offer oral hygiene, periodontal treatment and fresh breath clinics.

The dentists at the clinic offer oral surgery, periodontics, prosthetics and orthodontics. Emergency dentistry is available for patients. The website provides educational materials to advance the knowledge base of patients and potential patients. A definition database describes terms such as crowns, implants, composite bonding,

veneers, teeth whitening and bridges.
