

Announcing the Limitless LeadHER Movement International Tour for Women Leaders and Entrepreneurs Asking ?What's My Next??

January 19, 2017

January 19, 2017 - PRESSADVANTAGE -

President and Founder of LeadHER International LLC, Dr. Sarah Renee Langley is creating a movement to help mobilize women leaders to discover their 'Next.' Dr. Langley writes and speaks through her Limitless LeadHER services about how women LeadHERs in the corporate and entrepreneurial spaces can tap into their limitless possibilities and discover boundless opportunities that await them.

?These women need to know how to transition and give up what's comfortable and secure and go after what's purposeful and profitable,? said Dr. Langley. ?Simply put, these women are on a journey to discover and achieve their ?Next,? what's beyond their limits, from what was once seemed impossible to making it possible and to finally having it be actual for them. This could include starting and sustaining a successful business to maintaining meaningful relationships and creating a legacy for future Limitless LeadHERs everywhere.?

Before working with Dr. Langley, women in corporate and entrepreneurial spaces said they felt powerless and unfulfilled in different facets of their lives and didn?t have a clear vision or path about what their next step

or level would be. Dr. Langley said the limitations they felt were due to the fear of the unknown.

“These women needed mentorship, accountability, and direction to move and make actionable steps to their
“Next,” Dr. Langley said. “There is an explorer in these women hearts that knows there is more out there
that will result for them to be purposeful, powerful, and profitable. Overall, they will feel and be fulfilled.”

Through her Limitless LeadHER Movement, Dr. Langley mobilizes women leaders in the corporate and entrepreneurship space to discover their next beyond the limits and boundaries. She believes her students will not only break the glass ceiling but obliterate it so that not only her students can go through them, but other future Limitless LeadHERs can go right through them as well.

Dr. Langley says the Limitless LeadHER movement helps women get ready for their next move by:

1. Identifying and addressing personal fears
2. Stopping self-sabotage
3. Changing mindset
4. Getting crystal clear about what it is they want to do and knowing if the business they pursue is viable
5. Creating a personal, supportive community
6. Developing new skills toward their business so that transition from what's known to the unknown is easier to do
7. Exercising their financial knowledge base to solidify a sustainable business.

Overall, Dr. Langley vows that through her Limitless LeadHER Movement that women leaders and entrepreneurs learn how to go from corporate to entrepreneur, from worker to owner, and from success to significance in all facets of their lives.

In 2017 Dr. Langley's Limitless LeadHER Tour will take place throughout the US and overseas, using Langley's messages for women leaders from her latest book, “It's Your Turn NOW! 7 Secrets to Living Life on Your Own Terms.”
