

Burlingame Gym Reopens As Marvelous Performance

February 13, 2017

February 13, 2017 - PRESSADVANTAGE -

Marvelous CrossFit, a company in Burlingame, CA, has recently expanded their brand. Now known as Marvelous Performance, they no longer just offer equipment for crossfit exercises, but many other fitness tools as well as nutrition coaching. To celebrate the grand re-opening of their business, they now offer a completely free 30 day membership to enable people to get to know the center. Known as the best Burlingame crossfit gym, people are already becoming very interested in the other things the center is now offering.

Ranier Gadduang from Marvelous Performance says: "Our new fitness center will enable you to become irresistibly attractive. Reveal the sleek, sexy body you know is inside through quick, efficient workouts designed to accelerate your metabolism and burn more calories than standard gym routines - lose twice the fat in half the time! We welcome everybody through our doors and will help them set up a fitness and nutrition program for the greatest results. And our very limited time offer of a 30 day free membership really is an opportunity not to miss."

When it comes to going to the gym Burlingame residents are often very critical. They have high expectations, as well as very particular demands. As in many other places, they can be divided into two main categories: those who want to tone or bulk up, and those who want to lose weight. However, the percentage of people in

Burlingame who are overweight or obese are much lower than in the rest of the country, which means they have very different requirements in terms of their fitness and nutrition than what is standard in other parts of the nation. Marvelous Performance feels uniquely equipped to address those particular needs.

"We will help you to unlock your inner beast mode," adds Ranier Gadduang. "Move faster, endure longer, and grow stronger than you ever imagined. Our proven method systematically increases performance gains while maximizing safety and injury prevention. Build strength, speed, and endurance to dominate every physical activity that you do."

People are encourage to come and visit the newly opened fitness center and take advantage of the free 30 day membership offer to see what all the fuss is about.
