

Los Angeles Limo Ride Buys New Luxury Vehicles to Cater Growing Demand

January 21, 2017

January 21, 2017 - PRESSADVANTAGE -

Los Angeles Limo Ride, an L.A based Limousine service company, has announced the addition of new luxury vehicles to cater the growing demand of Limo in Airports and high end parties. They have added a dozen more high-end vehicles to their fleet to meet the growing demand of such cars for air transport travellers and upper middle class revelers.

"The demand for high-end vehicles in the greater L.A is increasing day by day. We want to meet that demand with our vehicles, and we strive to add even more luxury cars should that demand increase," Greg Johnson, the company spokesperson said. "We are especially noting a demand for luxury vehicles in airports, middle level night clubs and with celebrities; which is why we want to satisfy them with the best of the best cars," Johnson added.

Los Angeles Limo Ride is one of the most popular luxury transport companies in the greater LA locations. At several times, the company has been ranked top most loved company by customers for Los Angeles limo services. According to their official website, lalimoride.com, the company largely credits their expert services for the ever high demand for their vehicles. LA Limoride also offers a wide array of services; which includes

air transportation; casino tours, bachelor party limo services, weddings, birthday parties and cruise transportations services.

?Our secret for being the most revered luxury transport company in LA and beyond lies in the quality of what we do. We identify our customer?s needs, and satisfy them to the best of our efforts. We also use the best chauffeurs in LA for our cars, and as such our clients travel in a relaxed and comfortable manner at all times,? Mr. Johnson noted.

While the transportation industry in LA is full of heavily financed companies, LA limoride has managed to make a big name for itself in the greater LA counties of Orange, San Fernando, Ventura and San Gabriel Valley. According to Mr. Johnson, most of their loyal clients actually came from the counties that lie outside of the LA metropolitan region. He further added that there had been a surge in the number of events held in areas outside LA City, which was in part a reason that inspired them to add more luxury vehicles.

?We have identified a trend of upper middle class people holding weddings, major events and corporate meetings outside of the Metropolitan regions. In fact, almost half of our clients last year came from regions located outside of the Metropolitan,? Mr. Johnson recently said.

The Limousine Company is however facing many competitors, some of which are owned by billionaire investors. This fact is however not a big challenge to the company?s founder, who maintains that their excellent services and great reputation fights for them. Mr. Howard however says that his company will continue to adapt the most advanced marketing and management strategies so that they can position themselves as the undisputed limousine service company in LA.
