

Hartford-Based LeadsForward Launches New Business And Website

January 23, 2017

January 23, 2017 - PRESSADVANTAGE -

LeadsForward offers a fully competent new online business and website dedicated to customers' business growth. The experience base of the new business amounts to more than a decade.

Hartford CT: LeadsForward and founder Trevor Eddy are pleased to announce the launch of the business and its website. The company was started with a desire to help people first. Small local business owners who have little time to take care of technical activities.

"We're not in the online marketing business. We're in the people business." - Trevor Eddy

The firm takes care of digital marketing, search engine optimization, web design, online advertising email marketing and social media. The services provided by the professionals at the Hartford-based firm include driving sales leads through the website and improving the online presence.

The company is a no frills firm that has the knowledge and experience to accomplish the necessary activities to promote the client's business and increase sales. The actions and methods which are provided are white hat methods, so there is no risk of getting a website shut down due to questionable activities.

The SEO company Hartford CT professionals take care of the technical activities, allowing clients to focus on running the actual business. The focus of the new business is on supporting small local businesses because they play an important role in building strong, healthy and sustainable communities. The team of professionals has more than a decade of experience working with small businesses and improving their market presence.

In a recent interview, Trevor Eddy explained, "We deliver tangible results and give your business the online exposure you need and deserve. Our services will drive massive amounts of leads, traffic and sales to your business. We provide techniques which help to increase sales, increase brand awareness, generate high-converting online leads and increase website traffic and search rankings. The result is to grow your business exponentially."

"Our specialties include online marketing, search engine optimization and local marketing and SEO," he continues. "We have the knowledge and experience to improve your online lead generation, using web designs that convert. We also offer Pay Per Click and Ad Management techniques. Social media marketing and email marketing are also included in the services we offer."
