Bestmowerreviews, a review site for lawn mower, has announced its plans to help people learn about more than 8 different types of lawn mowers in the market today. To start with, they have recently released comprehensive guide for layman to understand mower types and functionalities.

“Buying a lawn mower may seem like an easy task to some people, but millions of home owners can’t actually differentiate between a push and reel lawn mower. We want to commit more time and guide these people to know about mowers.” Bradley Hues, the site’s founder said.

Bradley comes from a family of farmers. And with his rich expertise in handling mowers, he hopes to educate and advise people accordingly on best lawn mower. He has a passion in mowing, and the main reason for his recent commitment to help people own better lawn mower. He has been in this business for quite a while. On a typical day for instance, Bradley said that he could handle call while writes more articles reviewing new law mowers in the market.

“My family has a long history of farming, and I have learnt a lot of things about lawn mowing from them. I

have been in this business for many years, and always feel pleased at seeing people react positively to the advice. For me it is more about seeing people react happily for knowing what mower to buy,? Bradley said.

Studies show that up to 75% of customers in the US research about the product before taking any decision. It helps them to check product?s legitimacy and compliance with local laws in the country. However with the availability of so many products, it rather confuse them and they always look out for all in one guidebook to take the final decision.

?We have tried to keep the guide objective with honest opinion and will help the readers to shape their buying decisions. We have highlighted the weaknesses and strength of a certain mower for instance zero turn lawn mowers, which helps the customer to eliminate their doubts in a product. This guide will serve more than a product?s testimonial information,? Hue noted.
