

Grampstr's Pride Launches New Ordering System

February 10, 2017

February 10, 2017 -

Grampstr's Pride, a business in Elizabethtown, PA, has announced that they have launched a brand new ordering system. This system has been designed to be far more user friendly. Now, all their biodegradable and eco-friendly boat and RV cleaning products are available at just the click of a button through <http://www.grampstrspride.com/products/>.

Joe Chaudoin from Grampstr's Pride says: "We offer specialized products for cleaning of RVs and boats. All our products are eco-friendly and biodegradable. In the past, our ordering system was quite complex, but we are very happy to announce that we have completely upgraded it, so that there is no longer any difficulty in accessing the information people need."

The company had previously launched an aggressive online marketing campaign and they have only recently enabled people to order their products online and quickly found that the ordering system needed changing, which they have now done. On top of that, they have launched their Facebook page on <https://www.facebook.com/GrampstrsPride/>, where people can ask questions about the products and generally get involved in conversations about RVs and boats.

Many people have already taken to the Facebook page to review the various Grampstr's Pride products.

"Wow, I won a package of supplies at Sarasota boat show and they are wonderful," says Thelma V.G. on the Facebook page. "The Renew fiberglass & stainless steel stain remover is fantastic. Took all the yellow stains off hull in about 2 minutes. Will reorder when I run out. Great products."

The company offers six particular products as part of their inventory. These are Renew (the fiberglass and stainless steel stain remover), Revive (the leather and vinyl cleaner and conditioner), React (the enzymatic holding tank treatment), Reshine (the 18% wax and wash), Reflect (the boat soap), and Refresh (the concentrated HE liquid laundry detergent). Each of these products has been specifically made for RVs and boats, which not only are made up of specialized materials, but are also exposed to various natural elements that other items generally aren't.

People are encouraged to visit the Grampstr's Pride website to check out the new ordering system themselves.
