

Associated Hearing Of Saint Paul Now Offers \$100 Off New Pairs Of Hearing Aids

June 06, 2015

June 06, 2015 - PRESSADVANTAGE -

Hearing specialists, Associated Hearing of Saint Paul, occupying an office space in JGM Properties' Central Midway office building, now offers a \$100 discount on new pairs of hearing aids.

Associated Hearing was founded in 1975 with the vision of providing highest quality patient care, a full range of hearing instruments at affordable prices, and up-to-date technologies to ensure quality consultations. Their staff understands that for many, visiting a hearing health professional can be a stressful experience. Associated Hearing's comfortable surroundings and compassionate professionals will help to ease your fears.

The typical signs of hearing loss include: frequent repetition, responding inappropriately in conversations, difficulty hearing in noisy situations, and turning up the volume for radio and television listening. If you are experiencing any of these signs, now may be the perfect opportunity to schedule a hearing health consultation with Associated Hearing.

During hearing health consultations, Associated Hearing discusses your lifestyle, the listening situations where you are comfortable and where you experience difficulties, what's important to you in managing your hearing, the types of products that are available to you, and the full array of opportunities that exist to bring you back to the world you have been missing.

"During your consultation we give you the opportunity to compare hearing aids from different manufacturers, allow you to test those devices in a variety of listening environments, and present you with the best solution for your individual needs," says Marlene Martinek, President of Associated Hearing.

Associated Hearing is a multi-brand dispenser. They strive to match your needs to the best possible brand and style of hearing aids at the most affordable price. The manufacturers they work with include: Oticon, Siemens, Unitron Connect, Starkley, Widex, Phonak, Sonic Innovations, ReSound, and more.

Associated Hearing also offer products and services to protect your hearing, such as noise plugs for hunters, musicians, MP3 users, and those who work in loud environments. They also stock, display, and demonstrate a full range of noise protection products and assistive listening devices including amplified telephones, TV devices, alarm clocks, smoke detectors and more.
