

Grampstrs Pride Launches Facebook Video On Inflatable Boat Cleaning Solution

February 09, 2017

February 09, 2017 - PRESSADVANTAGE -

Grampstr's Pride is a company in Elizabethtown, PA ,that focuses on creating biodegradable, eco-friendly cleaning products suitable for RV and boat owners. They have recently engaged in a new marketing campaign about their various products, using social media as their base. They have created a new video to show people how to use their product to clean an inflatable boat with ease and amazing results. The video can be viewed at the company's Facebook page at https://www.facebook.com/pg/GrampstrsPride/videos/?ref=page_internal.

Grampstr's Pride's Joe Chaudoin says: "Our goal is to make sure our customers can order the products that they need, and that they know exactly how to use them as well. User friendliness is one of our top concerns at Grampstr's Pride, and we want to make sure that every question is answered. Hence, we have created a video on how to use our product on an inflatable boat and get fantastic results."

In the video, two of the Grampstr's Pride products are used: React and Revive. React is first sprayed on at full strength, after which suds can be created using a brush. This will instantly start to pull out stains and dirt from the boat. Interestingly, React is a multifunctional product that can be used to clean toilets and pipelines

within boats, while also being an abrasive cleaner.

The second product featured in the video is Revive, which is used to bring the shine of the boat back. Details about this product are available through the Grampstr's Pride website at <http://www.grampstrspride.com/products/revive-32-oz-leather-and-vinyl-cleaner-conditioner-rich-leather-scent>. "Spray it on full strength and let it sit for a couple of seconds," adds Joe. "Then wipe it off with a rag, and you will see the result straight away."

Those who want to achieve greater shine on boats or RVs that are not inflatable can also use the Reshine product, which is an 18% wash and wax product. All products are biodegradable and eco-friendly, so that people do not have to worry about having a negative impact on the environment by cleaning their boat or RV. This is available through the Grampstr's Pride website at <http://www.grampstrspride.com/products/reshine-18-percent-wash-and-wax>.
