June 03, 2014 -

Houston, TX ? Sorvita Health Products, a provider of premium quality weight loss and nutritional supplements, announced they are having a summer promotion of 25% off the regular price of Tribulus Terrestris, the choice supplement of many power lifters. Now, instead of paying \$18.95 for a jar containing 90 capsules of 1000 mg each of Tribulus Terrestris, customers can expect to pay 25% less by ordering it through Amazon or from the company website, <http://www.sorvita.com>. This special summer offer ends July 15, 2014.

Tribulus Terrestris is a plant-based supplement that contains Steroidal Saponins, which have been shown to naturally increase testosterone, which leads to muscle growth and can increase strength while enhancing athletic performance. According to the company, Sorvita Tribulus Terrestris has the highest potency of similar brands on Amazon, and it provides 95% Saponin content as compared to 45% potency per capsule the others contain.

This popular supplement has been used as a natural alternative to steroids for centuries in ancient Greece, India and Africa. Although it actually contains no hormones, Tribulus is said to support healthy hormone production and male reproductive health. Russian power lifters have sworn by the benefits of using this supplement for years, and now it is used by athletes and bodybuilders around the world.

Customers who use Tribulus terrestris extract claim that it provides them with more energy and strength as well as an increase in their libido.

?For me, this is a great product with great value.? Jamie M.

?Buy this product it works 100% and a BIG POW in the bedroom!!? V.C.

?I love the product. It very quickly boosted my feeling of virility, self-confidence and assertiveness, not to mention additional focus.? Christopher R.
