Garage Door Repair Company Goes National With New Cities Atlanta, Orlando, Jacksonville, and Tampa

February 07, 2017

February 07, 2017 -
Regional garage door company Mr. Garage Door makes a move to spread nationwide by expanding its service areas to include Atlanta, Jacksonville, Orlando, and Tampa as the first four of many new cities.

Atlanta, GA - After four years of serving the Texas cities of Austin, Dallas/Ft. Worth, Houston, and San Antonio, Mr. Garage Door recently began offering garage door repair in Atlanta, Orlando, Jacksonville, and Tampa as the company looks to expand its reach beyond the Lone Star State.

Mr. Garage Door is a full-service garage door company with a focus on garage door repair and maintenance service. The company emphasizes the importance of routine maintenance on garage doors in order to prevent more serious damages and to extend their lifespan.

The garage door has replaced the front door as the main entrance used by people going to and from their homes. This means that not only is the garage door opener an important, yet mostly neglected, appliance utilized daily, it is also more likely to wear out and require more frequent maintenance. To save money and hassle in the long run, it is recommended that people have their garage doors serviced once every two years

at least, instead of waiting until that moment when the garage door won?t open or close.

As the largest and heaviest moving part on the home, garage doors can also be dangerous if not properly maintained. Though there are standard safety features installed with every new garage door that were not previously required, such as the photo eye and reverse sensors that prevent the door from crushing anything in its path, garage doors still need to be diligently attended to in order to lessen the likelihood of breakage resulting in accidents and injuries. And there are many doors and openers that should be updated to include these newer safety features or replaced completely.

Mr. Garage Door offers a full spectrum of garage door repair and replacement services, as well as performing preventative maintenance checks. Now in seven cities with the addition of Atlanta, Orlando, Jacksonville, and Tampa, the company has its eyes on other cities and states as it looks to expand further in 2017. http://mrgaragedoor.com/garage-door-tampa/
