

# **Somroli Systems Provides Best Fingerprint Time Clocks and Attendance Management Solutions**

*February 13, 2017*

February 13, 2017 - PRESSADVANTAGE -

Somroli offers attendance management and tracking solutions such as biometric time clocks, fingerprint time clocks and custom time and attendance solutions fully integrated with many ERP and cloud based workforce management solutions like SAP, Oracle, Workday, Ultimate Software, Intuit Online, Tyler Munis etc.

San Jose CA: Somroli Systems is pleased to announce the launch of the top quality Fingerprint Time Clocks and Attendance Management Solutions. The company provides white label solutions with a dedicated server for payroll. HR service providers and IT solution providers around the globe can make use of the server software and smartphone apps for geo-location attendance tracking branded with the logo and theme of the enterprise.

A variety of time and attendance solutions including wireless enabled face and fingerprint readers, as well as, ID reader time clocks work with enterprise SaaS solutions. Businesses are empowered to use their accounts in order to manage employees and time clocks online. Virtual solutions support unlimited time clocks and employees.

Time tracking solutions can be used by government agencies, non-profits and K-12 schools. The products comply with all federal, state and local compliance regulations. The systems are extremely affordable and can be easily integrated with the payroll and human resources systems currently in use by the agencies.

"We believe in an eco-system in which best products and solutions can be made available to customers in a highly collaborative environment only," A spokesperson from Somroli said. "We provide cloud-based attendance solutions, using our proprietary server designed and developed by talented IT professionals in Silicon Valley, California. We offer multiple data collection options which include biometric time clocks (face and fingerprint time and attendance ), ID readers, Geo-location plus photo punch Smartphone apps, PCs, laptops and notepads. We recently completed a few projects to help our clients replace Kronos Time clocks with our scalable, economical time clocks. Our time clocks work with any third party software, On Premise or on the Cloud."

Time and attendance for payroll service providers, HR solution providers and IT solution providers, as well as for government and K-12 entities are using cloud-based solutions. Features which make the systems particularly advantageous include accessibility, push technology, accuracy and real-time data transfer. The software also provides 24/7 health monitoring capability. Multiple data collection options and privacy assurances are also included in the specifications.
