

Goodyear Roofing Company Celebrates 32 years of Operation

February 13, 2017

February 13, 2017 - PRESSADVANTAGE -

Goodyear Roofing offers the community's best tile, shingle, foam and flat roofing firm. The family-owned firm has the skills and experience to install or repair roofs throughout the region.

Goodyear AZ: Goodyear Roofing Company and owner Jason Rose are pleased to announce that the father and son team have been providing roof installation and repairs in the Goodyear area for more than three decades. Roofs of tile, wood, clay, asphalt, concrete, slate are common materials in the desert climates. The professionals at Gary and Son have the expertise products and equipment to take care of roofs constructed of any of a variety of materials.

A company representative explained, "Out here in Arizona, you see mostly tile as a roofing material. It is some of the longest lasting material available, and is great in the Phoenix sun. It is, however, easily broken. We can color and style match anything, so whether you just need a few cracked tiles replaced, or you need a complete roof replacement and you have a specific design in mind, we can handle it."

He continues, "Damage to a roof can be the result of rain, birds, the sun's rays and wind. Hailstorms and branches from trees may be enough to interfere with the integrity of the surface."

The firm is able to handle new builds in a reliable manner. When a roof has been exposed to the Arizona sun for a while, a yearly inspection is recommended. A small expense for an inspection can save thousands. A roof inspection done by a knowledgeable, honest and professional inspector requires only a short time and may save extensive damage to the roofing surface. A complete overview will determine the condition of the surface and any areas which might be at risk of further issues.

The family-owned business is known for its excellent customer service as well as pride in the products and installation. The company has been in operation since 1985 and understands the importance of the roofing materials which are selected. The company provides dependable service, honesty and integrity.
