# Debby Mc Kinney Announces May Meeting Of The Emerald Coast Women In Business

*March 24, 2017*

March 24, 2017 -
The Emerald Coast Women in Business (ECWIB) Connections has announced the date and location of their May monthly meeting. The event will take place on Thursday, May 11, 2017 from 5:30 pm and 7:30 pm at the Bluewater Chiropractic Wellness Center, 4400 FL-20, Niceville, FL. This event will be a special one, as it is hosted by Dr. April Lee and Dr Brynne, and the co-sponsors are all experts in the field of natural healing. More information about the event can be gleaned at https://www.meetup.com/emerald-coast-women-in-business/events/237344044/.

Debby McKinney, co-founder of ECWIB, says: "This event is one that I have been looking forward to for a long time. It has a strong focus on natural healing and natural resources, and we really couldn't have found a better host, or better co-sponsors. We encourage everyone to come to this one, not just for the fantastic connections and networking opportunities, but because they could even improve their health."

ECWIB offers monthly, free networking events. Hosts are generally women owned or managed businesses in the Destin/Miramar Beach/Bluewater Bay areas or businesses that would benefit women. Up to three co-sponsors take part each month, who will assist the host in providing refreshments and organizing the event itself. In return, they receive exposure on the flyers, social media like Facebook and LinkedIn; and are allotted 3-5 min at the event to talk about their business. Each will also be able to set up a small display at the event showcasing her business.

All ECWIB events are suitable for all women, whether they currently work in business, nonprofit, entrepreneurship, or are looking for work. The events are always industry inclusive, rather than exclusive, which means all are welcome. While the May event will have a focus on natural health resources and health, this does not mean it is only suitable for those whose work focuses on that.

Debby McKinney adds: "This really is going to be a very interesting event. We will run our facilitated networking sessions, which have proven to be very popular, but with a strong focus on natural resources and natural health. That is information that can benefit everybody across the board, regardless of their personal

business focus."
