

My Locksmith Pro Expands Emergency Services

February 21, 2017

February 21, 2017 - PRESSADVANTAGE -

Myrtle Beach-based locksmith professionals offer a range of services for residential, commercial and automobile purposes. The pros can respond quickly around the clock.

Myrtle Beach SC: My Locksmith Pro is pleased to announce that they now offer 24/7 locksmith services to customers in the Conway, North Myrtle Beach, Surfside Beach, Socastee, Garden City, Murrells Inlet and Little River areas. The professional locksmiths are knowledgeable about their range of services which they provide. They are able to accommodate residential, commercial and auto customers. The technicians are always on call and ready to respond quickly. They are able to handle simple lockouts, as well as full security system audits.

The Myrtle Beach locksmith technicians can take care of customers who are locked out of their home, business or automobile. In any of these instances, the customer needs assistance quickly to regain access to the premises which are subject of the lockout. The technicians can quickly resolve instances where a key is lost or broken. The professionals can restore manual or electronic locks to optimal operating condition.

Residential lock services include the repair of locks, duplication of keys and installation of new locks. Repair of locks is also included in the list of residential and business services. Installation of locks for high-security needs, sliding doors and window locks is completed using the best products and methods. Digital, keyless locks are another aspect of the services provided. The professionals are able to duplicate keys as required.

According to a spokesperson for the locksmith firm, "We offer commercial services to many local businesses in the area. My Locksmith can take care of all your commercial needs, from small jobs like rekeying filing cabinets, to installing panic bars or opening and repairing safes. We can rekey mortis cylinders, so if there are copies of keys that you don't want to access your business, we can handle it with our same day service. My Locksmith can install a master key system for your business so you can avoid the hassle of having many keys for the same property."
