Dr. Rooter Celebrates 18 Years In Business To The Midlands

February 21, 2017

February 21, 2017 -

Dr. Rooter offers premier plumbing services in Lexington, SC. The firm has been serving the Midlands area since 1999.

Lexington SC: Dr Rooter and Ralph Fisher are pleased to announce that they have completed nearly two decades in business in the Lexington area. Both commercial and residential plumbing services are available using the expertise of the pros. The company is licensed, bonded and insured to apply their many years of experience, so that plumbing services are completed correctly the first time. In addition to the many services which are available, 24/7 emergency response by the professional team is assured.

The plumber Lexington SC team offers video inspection, back flow testing, hydro jetting, sewer and drain line repair, faucet and sink repair and replacement, shower stall repair, dish washer install and garbage disposal installs. On a larger scale, there are tankless water heaters, whole home re-piping, line and leak detection and more.

The company has been operating in the Midlands area since 1999. They are equipped to handle residential and commercial customers alike. Plumbing projects of all sizes are handled with competence and professionalism. The website includes tips for making plumbing budgets go further. Care and attention to small issues can mean fewer service calls, and fewer emergency issues which require a professional call in the middle of the night.

When the company has years of experience in an area, it indicated that they are aware of the importance of quality work and a professional attitude. Each customer is treated in a way that demonstrates respect and courtesy. The work is completed promptly and the plumber makes sure to clean up after correcting the problem.

Recommendations for replacing or upgrading plumbing products are available from the company technicians. They have the knowledge and experienced to suggest new products which are suitable for the house or business. The latest technology can offer lower energy costs and have a longer lifespan. Home and business owners who have budget constraints will appreciate high quality services and products and affordable prices.
