

First Class Transport Marks Eighteen Years Of Experience In Towing And Hauling

February 21, 2017

February 21, 2017 - PRESSADVANTAGE -

1st Class Transport offers hauling, flatbed and refrigerated transport in Pee Dee. The company is also the premier towing service in the area.

Effingham SC: First Class Transport and Avery Jones are pleased to announce that they have over 18 years of towing experience as the premier company in the Pee Dee. The drivers bring their knowledge and experience to each job they work. In addition to towing experience, the professional team specializes in hauling, flatbed and refrigerated transport throughout Pee Dee. The vehicle or goods are transported safely and on time. 1st Class Transport handles any job, large or small.

The towing Florence SC professional team is the leading towing and transport experts in Florence, South Carolina. Jobs of any size and type are handled competently. The company offers towing, flatbed hauling, refrigerated goods transport, standard transporting and much more. The major category services include flatbed hauling , refrigerated goods transport and standard transport. The company also offers towing and

vehicle recovery. The experts associated with the firm can track down any vehicle and get it back to where it needs to be.

According to Avery Jones, speaking to an interviewer recently, "Our professional drivers are licensed, experienced and knowledgeable in the techniques and procedures to safely take care of transport jobs. For nearly two decades, the team of professionals has been taking care of transport jobs in the corner of the Carolinas known as the Pee Dee. The latest equipment is used to ensure that the customers are satisfied with the job.

The fleet includes flatbed trailers in 48 and 53 foot lengths. These trailers are used to haul sod, equipment, steel and lumber. They haul oversize loads as well. Refrigerated goods transportation is done using 48 and 53 foot refrigerator trailers. The trailers are used to haul produce, meats, frozen foods and some dry goods. Refrigerated goods travel from Texas to Massachusetts and from Chicago to Florida. Temperatures are controlled with computer downloads.
