

Natural Antifungal Treatment Helps Keep Swimmer's Toe Nail Fungus From Spreading

March 14, 2017

March 14, 2017 - PRESSADVANTAGE -

Irwindale, California based Perfect Nail Solution recently announced a new benefit for their product. The company, which produces a nail fungus treatment that is made from natural essential oils, has stated that as nail fungus is contagious, it can be transferred through feet via pool decks, floors, and showers. The company adds that its toe nail fungus treatment has been proven effective at combating fungus spread in pools and other areas.

Allen Chong, a spokesperson with Perfect Nail Solution says, "Nail fungus is very contagious. In fact, it is often spread in pool areas. Our treatment can help to diminish that fungus and keep it from returning so you can enjoy the pool all summer long without worries of getting the fungus."

Chong says that the formula in Perfect Nail Solution is specifically designed to provide an antifungal treatment that can counteract discoloration of the toe nails. The two step solution includes a soak as well as a topical solution. Chong states that the system is designed for ease of use and convenience.

"You want something that you can use at home to kill that fungus on the toe nails," Chong states. "Our

system is designed to be conveniently used at home. There are no worries of heading out to the doctor and you can save money by treating your fungus yourself."

Chong says that the system is designed to clear fungus and restore nail color quickly, effectively, and painlessly. He states that there are no harsh chemicals used in the formula, which makes it safer than most treatments available today. The product contains only natural ingredients including lemon oil, which are effective in treating toe nail discoloration. These include tea tree oil, vitamin E, jojoba oils, and various other natural ingredients that are safe and proven effective in eliminating fungus and helping to prevent recurring fungal infections. The product can be used up to twice each day and is safe for both toenails and fingernails.

Those interested in learning more about the benefits of natural toe nail fungus treatment can visit the company on their official website or see more about the product on the Amazon marketplace.
