

Travel Wipes Company Announces Resealable Packaging

March 13, 2017

March 13, 2017 -
Big Sky Products LLC in Fort Myers, Florida has announced that their travel wipes have resealable packaging, which makes them ideal for keeping germs at bay while traveling. The company states that their wipes are pre-moistened and have an anti-bacterial property to kill germs before they have the chance to make consumers sick, particularly when clean water is not available for hand washing.

Andrew Ried, a spokesperson for Big Sky Products, says that there are additional benefits to the wipes. "Our efficient and eco-friendly bags and wrappers use less moisture and plastic than a typical tube of wipes," Ried says. "They are also individually wrapped so they will not dry out before you have the chance to use them."

The company states that their anti-bacterial wipes come in a resealable travel bag, which conveniently fits into dresser drawers, laptop bags, or center consoles in vehicles. The moisture content in Awesome Wipes is low, making it safe to use on electronic devices in vehicles.

"They're also very safe to use on airplanes where viruses may be lingering," says Ried. "The worst thing to happen to you when traveling is to pick up some sort of virus that makes you sick. Our wipes can help you to

avoid coming into contact with germs that could ruin your entire trip."

The wipes are designed to quickly kill flu viruses and other germs, even those hiding on cell phones and various other electronic devices. The company states that their wipes will not leave streaks and are designed to make the devices shine. They are lint free, anti-static, and non-abrasive so they will not damage screens or other devices.

Each package of wipes includes 20 individually wrapped wipes. The packaging is specifically designed to keep the wipes moist and prevent them from drying out. Ried states that this is why they are perfect for traveling. They can be used on virtually any device or surface to kill germs and because they are individually wrapped, they offer more convenience than similar products. Those interested in learning more about the wipes and their benefits can visit the company on their official website or see the wipes on the Amazon marketplace.
