

Stage Rental Company In Charlotte NC Announces Fourteenth Year In Business

March 03, 2017

March 03, 2017 - PRESSADVANTAGE -

Carolina Sound, Stage & Lighting in Charlotte, North Carolina, has recently announced that they have reached a milestone because 2017 marks the fourteenth year in business for the event production, stage rental and lighting company. Danny Diaz with Carolina Sound and Lighting says, "We are thrilled to be celebrating this anniversary. We have spent the past 14 years catering to the needs of our customers and plan to spend the next few decades offering the same level of customer commitment and satisfaction in everything we do."

"Whether you're a small pub owner or hosting a huge concert, we are sure to have the inventory available to accommodate you," says Diaz. "It's this dedication to keeping our customers happy that have kept us in business for nearly two decades and we don't plan to change that."

The company offers large scale systems for a number of events including high ticket concerts, corporate events, churches, bars, and various other theatrical occasions. They supply DJ gear as well as custom sound systems, lighting effects, and premium staging that is completely customized to meet each customer's specific need. More about the equipment that the company uses can be seen at

<https://carolinassl.com/lighting/>.

Diaz states that they have a staff of highly qualified and experienced individuals who have helped to shape the company's success over the years. He states that they use only state of the art equipment from popular and reliable manufacturers such as JBL, Crown, Furman, and various others. The company states that ensuring quality is what they have done since their first job and that this is one reason why they have become a reputable and popular company to call when it comes to stage rentals and other services.

Diaz states that the company's commitment to their customers and their overall quality shine through in every job that they undertake. They offer a full selection of DJ equipment as well as stage and event lighting, sound systems for small to large events, wireless systems, and a number of staging services. Those interested in learning more about the specific services offered can visit Carolina Sound, Stage & Lighting online at <https://carolinassl.com/dj-equipment-rental-charlotte-nc/>.
