

Auto Body Collision Repair Shop Expands To Include Sacramento

March 03, 2017

March 03, 2017 - PRESSADVANTAGE -

The Auto Body Collision Repair Shop is proud to announce that they have expanded their service area to now include Sacramento, CA. The company offers a wealth of services, including detailing and collision repairs. They have experienced tremendous growth, and this has enabled them to expand.

A representative from the company says: "Our business has grown substantially over recent months, and this has enabled us to significantly expand our services. Now, people from all over Sacramento can come to us for their auto body repair needs. Naturally, we will continue to deliver the kind of customer service we have come to be known for."

The company has set itself the challenge of becoming the best auto body shop Sacramento CA residents would be able to depend on. The company points out that they have invested heavily in training their staff members to deliver a wealth of services, thus ensuring that any car they are given is returned to the original state it was in before it got damaged in an accident. Furthermore, they don't just offer collision repair services, but also detailing services, so that vehicles can look even better than they did before.

The representative adds: "We can fix the smallest dent to the effects of the worst crash, but we can also take a vehicle and make it look amazing by adding various products. We pride ourselves on our attention to detail and creativity."

The company started offering auto body services over four decades ago. Over recent months, they have been looking to further expand the services that they offer. In fact, their ultimate goal is to be able to offer their services to the entire nation. Some of the areas they have recently added include Odessa, TX, and Modesto, CA. So long as the company continues to grow, they will also continue to add new locations to their service offerings.

"We are committed to reaching every corner of the nation," ends the spokesperson. "However, we will only do this in such a way that does not compromise our commitment to quality of work and customer service. Hence, we really want people to watch this space because we will be adding more, and they can expect our perfection everywhere."
