

Chicago Home Inspection Company Continues To Donate To Habitat For Humanity

March 07, 2017

March 07, 2017 - PRESSADVANTAGE -

Home Inspection Geeks, Inc., a business in Chicago, IL, has announced that they will continue to donate 5% of their proceeds to Habitat for Humanity Chicago in 2017. The company's motto is that everyone deserves a safe and reliable home to live in. By donating to Habitat for Humanity, they feel able to help build good homes for those who most desperately need them. The company strives to be the best home inspection Chicago residents can go to, and their contributions reach thousands of dollars and are greatly appreciated by the organization and the community as a whole.

Timothy Wojnar, president of Home Inspection Geeks, Inc., says: "It's something I am so proud to be able to do. Habitat for Humanity Chicago works locally to help families build a strong, stable future by providing affordable home ownership opportunities."

Alongside thousands of volunteers, Habitat Chicago home buyers build their homes from the ground up and enroll in over ten homeowner education courses. After this, they can purchase their home at an affordable mortgage.

"Please consider making a personal donation or volunteer to help build a home for a deserving family," adds Timothy Wojnar. "Every time you ask us to conduct Chicago, Schaumburg or Arlington Heights home inspections, you will be contributing to this hugely important work."

In partnership with families, volunteers, local neighborhood residents and organizations, Habitat for Humanity Chicago strengthens communities and supports families as they build stability and self-reliance through homeownership. Determined to see all Chicago neighborhoods thrive, their mission is currently focused on the South Side neighborhood of West Pullman, working directly with residents to support their aspirations for the community.

Those who have worked with the Chicago, Arlington Heights, and Schaumburg home inspections company have been very happy with the service they received. "Scott and Anton were amazing," says Drew F. on the company's website. "Extremely thorough, patient and laser-focused on all of the details. They spent more than 3 hours inspecting the property I'm considering and carefully explained what they saw in the moment. Additionally, their report is amazingly detailed and their system lets you create a perfect summary for sharing with your real estate attorney and/or contractors. Throw in their guarantee and this is a business that's hard to beat."
