

Cameron Group Inc. Now Offering Free Book "What Every New York Business Owner Needs To Know To Protect Your Business And Family"

June 10, 2015

June 10, 2015 - PRESSADVANTAGE -

Cameron Group, Inc., a business operating from Nanuet, NY, is now offering a free book, "What Every New York Business Owner Needs to Know to Protect Your Business and Family", to any visitor to their contractor insurance website. The book highlights the importance of having proper liability insurance in place. It also discusses sub-contractors, exclusions and more. It is hoped that the book will encourage more people to take out the right liability insurance.

"I want to let people know that if they are a contractor, our insurance service is second to none in the industry!", says Brian Cameron from Cameron Group, Inc. "They can purchase their Contractor General Liability policy in the morning and present their Certificate of Insurance to their client in the afternoon. We issue Certificates in house, and we will fax documents to clients immediately. And if SERVICE wasn't enough, we also have the most competitive pricing!"

The book is designed to inform contractors about the various dangers involved in not having the correct type of liability insurance. Unfortunately, not all insurance is created equally and having the wrong insurance in place is almost as bad as having no insurance in place. One of the key issues that many contractors forget is to ensure their liability insurance also covers sub-contractors. Finally, it discusses what the various insurance exclusions are to be aware of. Too many contractors still believe that simply having liability insurance in place is all they need to know, and this could be a costly mistake.

The book also covers other types of risks that businesses are subjected to. Besides liability insurance, contractors also have to think about such things as fires, natural disasters, cyber crimes and various other elements. The reality, unfortunately, is that businesses are under constant threat of various risks and they must be properly insured for this.

After reading the book, contractors are encouraged to take out their insurance policies through

www.NY-ContractorInsurance.com as well. They can receive a free quotation online or over the telephone. The company prides itself on its fantastic customer service and low prices, something that is frequently acknowledged by their customers.

"Cameron Group was able to cover the insurance for our business", says D. Sirois from Sirois Construction, Inc. in Upper Nyack, NY. "I highly recommend anyone looking for business insurance to give Brian a call. They have the best rates."

Indeed, Brian Cameron is committed to saving his contractors hundreds of dollars on their insurance, while at the same time making sure they are covered properly. Their contractor program in particular is agency exclusive. In almost all cases, they are able to get significant discounts on their contractors' insurance, saving them hundreds, if not thousands, of dollars.
