

Wireless Pro Announces a 67% Discount For Top Rated Replacement Plantronics CS50 Battery

June 10, 2015

June 10, 2015 - PRESSADVANTAGE -

Wireless Pro, a mobile and electronics accessory product developer and manufacturer from Federal Heights, CO, has just released their Plantronics CS50 replacement battery on Amazon with a limited release 67% discount, meaning it costs just \$9.99. The rechargeable battery can be used on Plantronics cordless headsets. Because the battery is available at such a significant discount, it is expected to fly off the shelves.

"We are committed to delivering products of the highest possible quality", says Carlos Salguero from Wireless Pro. "This particular Wireless Pro CS50 battery is made of premium lithium polymer that is guaranteed to last. Indeed, we offer it with a full year unconditional replacement warranty, because we know it is built to last. While a replacement battery for Plantronics CS50 and CS55 series headsets, it will also fit on the Avaya wireless headset system."

The replacement rechargeable battery ensures people can use their headset for longer, without getting interrupted or having to recharge it. Indeed, it is designed to last around twice as long as standard OEM batteries. Furthermore, it is quicker to recharge than the OEM models. As such, it is likely to become the replacement part of choice for anyone using Plantronics or Avaya headset systems.

While the replacement battery has only been available on Amazon for a short period of time, it has already received various positive reviews. "I bought a few of these for our office (we use Plantronics CS50 Headsets) and spend roughly about 4-5 hour on the phone in an average day", says mrinalina. "These came packaged very professionally with their own manual and it feels to me like a high quality product. I noticed on my headset that the charge lasted about 1.5 times longer than the original and when I have forgotten to put on the base for charging it seems that the headset is charging a lot faster. I still have to get feedback back from the rest of the folks at the office but so far I am happy with these...!"

As the Wireless Pro CS50 battery is currently available with a significant discount, people are encouraged to order theirs as soon as possible. The discount is available for a limited time only, and when stocks run out, the price will return to the usual amount of \$29.99. However, even at that price, the batteries offer excellent value.

The fact that the battery is backed by a full one year unconditional warranty shows just how much the company believes in the quality of their products. This is true not just for their rechargeable battery, but also for all their other products. They are all available on Amazon and have received various positive reviews as the company will only put its name next to high quality products.
