Promotech Marketing Launches Site For Finding MN Remodeling Contractors Near Me

March 15, 2017

Golden Valley, Minnesota - March 15, 2017 -
PromoTech Marketing LLC - Minneapolis SEO company, has announced the launch of a website for home remodeling to help individuals find a home remodeling contractor near their location. The site focuses on individuals that are looking to find a contractor that specialize in bathroom, kitchen, basement and home addition projects.

Jeff Mork with PromoTech Marketing says, "It can be difficult for home and business owners to find a reliable and reputable contractor near their location. We've designed this new website for home remodeling to help those in need of renovations to find a company that has a good reputation in the industry and one that is ideally located in their general area."

Mork states that the contracting company provides deck and home remodeling services, including bathroom and kitchen jobs as well as basements, garages, family rooms, and more. The Total Home Remodeling website features experts that specialize in bathroom and kitchen remodels, but offer clients a number of other services as well.

A spokesperson for the construction company says, "We are dedicated to giving our clients everything that they want in a home or business remodel job. Our goal is complete satisfaction for each and every client who calls on us."

The company states that they have years of experience in their industry and that while they have been in business for many years, they have not had an online presence that allows clients to easily find them. Mork says that this is what PromoTech Marketing was hired to do.

"We designed a site for the company that would catch the eye of their visitors with the information that they need when they are trying to make an informed decision about their renovation company," says Mork. In order to compete effectively even in the offline world, Mork explains that a business has to establish an online presence which includes a website as well as strong SEO and online reputation management.

PromoTech Marketing offers services that include SEO as well as social media marketing, video production, web design and others that help companies to more easily be found by local clients. Those interested in learning more about the company can visit them online.
