June 13, 2015 - PRESSADVANTAGE -

Evodia Australia, a health and beauty company in Federal Heights, CO, has recently released their new vibrant fresh scent body mist on Amazon. The Evodia Fresh Scent Body Mist is a coconut and lime fine fragrance that leaves the wearer smelling fresh and beautiful. It is currently available at a 67% discount on Amazon while stocks last, and stocks are running out quickly.

"Our new product gives wearers a 100% authentic, luxurious, spa-like effect," says Carlo Salguero from Evodia Australia. "The scent is truly fresh and vibrant, reminiscent of summers on the beach. It is a sexy scent that is very long lasting and our hottest new fragrance. We are particularly proud of the fact that it is free from parabens and other harsh chemicals, and that it has not been tested on animals."

The product contains glycerin, which is known for its fantastic hydrating powers. As such, spraying the body mist leaves the wearer feeling instantly refreshed, as well as being good for the skin. Glycerin is known to attract water to the skin. At the same time, it builds a protective cover on the skin itself, thereby stopping it from losing moisture.

The product is a vibrant & fresh body spray, which means it is much lighter than perfume. At the same time, however, it is just as, if not more, intoxicating. Made from high quality ingredients, the perfume can last all day, leaving a gorgeous citrus smell wherever someone goes.

"We believe in nature and build on the beautiful, intoxicating scents that Mother Earth provides us with," adds Carlo Salguero. "Furthermore, believing in nature means not harming nature as well. This is why our product is free from harsh chemicals and parabens and has not been tested on animals. Anyone can wear our body mist without feeling guilty about causing harm to the planet, in other words. Indeed, we even make sure that the spray is packed in recyclable materials."

Various positive reviews that have been left on the Amazon page. People continuously mention just how wonderful, sexy and invigorating the scent is, and how long it lasts as well. As such this one from Evodia is beauty product that is in demand.

"I tried so many top branded spray even though not pleased with the smell," says Nirali Shah. "This is a great spray for excellent price. I have got many compliments about the scent since I started wearing this at work. I worked as a substitute job wear sometimes the spray smell is not too strong and not really too light."

Only 15 bottles remained at the time of this writing, after which the price will go up again.
