

Best Broom Holder Reaches Number One In Recommendations On Amazon

March 14, 2017

March 14, 2017 - PRESSADVANTAGE -

SF Group in Pasadena, California, previously launched their Best Broom Holder onto the Amazon marketplace. Since that launch, the broom holder has been considered the number one recommended product of its kind on the marketplace, and currently has hundreds of positive reviews.

Vincent Nell with SF Group says, "We are pleased with how well-received the broom holder has been. Our customers are finding it a very good option for organizing their brooms, mops, and other handled objects."

The broom holder is available on the Amazon marketplace and can be seen at <https://www.amazon.com/dp/B00KRC4ZF2>. Vincent Nell states that it offers a powerful grip that cannot be found in most other broom holders on the market and says that it takes very little time and effort to install.

"We included the screws and everything that need to install it in minutes," Vincent Nell states. "It is sturdy and offers a clean and compact design, so it doesn't take up too much space. After all, organizing products should be space saving and that's exactly how we've designed the broom holder to be."

The broom organizer contains rolling balls that automatically adjust to the thickness of the tool's handle, ensuring a secure grip. Each ball can support up to seven and a half pounds of weight without sliding.

Reviews on the Amazon marketplace praise the broom holder, saying that it is the best on the market for securely organizing a number of tools. The product currently has a near five star rating on the marketplace, putting it in the spot as number one recommended product of its type on Amazon.
