March 20, 2017 - PRESSADVANTAGE -

TattoosWin offers ideas for exciting and unique tattoos in a new online website. The significance of the designs and some of the meaning and history of various design classes are described.

Texas: TattoosWin is pleased to announce the launch of their website and blog devoted to ideas about tattoos. There are numerous examples of images in various categories on the website. In addition, there are categories for tools and equipment required in the practice of the art. The categories range from patriotic themes to zombies and vampires. The site also features links for custom tattoos and images from a variety of locations.

The collection placed on the Tattooswin is sizable and widely varied in themes, sizes and styles. Some of the categories include dolphins, queens, flags, dog tags and Egyptian motif tattoos. Other country and city themes include Italy and Ireland, as well as Western and Indian themes. There are dozens of different categories, with multiple images within each category. For example, the Hummingbird Gallery currently contains fifteen images in a variety of colors. Some of the bird images are combined with flowers. Dog lovers can find examples of favorite breeds. Many other animal images are included within the gallery of tattoos.

There is a great deal of additional information associated with the various categories of tattoos. Such elements as the popularity of the category, the meaning of the images historically, and in the current view. The meaning of various images can change significantly over time and the explanations associated with the images note those changes when they exist. The explanations of the various image categories are comprehensive and worth spending time on before deciding on the specific tattoo by an individual.

There are other tabs included within the website. The visitor to the web pages can learn about supplies and equipment such as gold ink. Another category is that of temporary tattoos. Some people may want to ?try out? an image before placing it on the skin as a permanent image.
