

Matthew Patera Celebrates 17 Years Of Carpet Cleaning Experience

March 20, 2017

March 20, 2017 - PRESSADVANTAGE -

Blue Sky Carpet and Upholstery Cleaning offers reliable green carpet cleaning from a team of professional and experienced professionals. The company has a service region of Glenwood Springs CO and all of the RFV area.

Glenwood Springs CO: Blue Sky Carpet and Upholstery Cleaning and Matthew Patera are pleased to announce that the company provides years of reliable experience in the business. The carpet cleaning Glenwood Springs team relies on individualized quality service and the best eco-friendly products available on the market. The technicians recognize that prompt and efficient service doesn't take up unnecessary time in the daily activities of the customer. The technicians provide service throughout the RFV and Glenwood Springs area.

The many services which Blue Sky offers include top notch carpet cleaning and upholstery cleaning. When necessary for stains and spots, the professional will ensure that there is a thorough carpet pre-treatment, removal of wax and remediation for pet urine and odor issues. The company provides the most advanced carpet protection. Where floods or other water leaks occur, emergency flood water extraction is available, using the latest technology and equipment at affordable prices.

According to Matthew Patera, speaking to an interviewer, "We are real, down to earth carpet cleaners. Blue Sky Carpet and Upholstery Cleaning has been proudly serving the people of the Roaring Fork Valley area for a long time. We provide quality service at reasonable prices. The Patera family has been in the carpet cleaning business for generations and it shows."

The years of experience gained working in the industry means that the team of professionals are able to handle a wide variety of cleaning and water extraction chores. The firm uses state-of-the-art methods and equipment to ensure that customers are satisfied with the results.

The crew at Blue Sky Carpet and Upholstery Cleaning is dedicated to environmentally friendly products and

methods to protect the planet. The company uses an all-natural solution mixed with a carbonated pressurizing system. This solution penetrates the carpet layers without over-saturating it. The area is then treated with a rayon and cotton pad to absorb the stains and moisture. This approach dramatically reduces the amount of moisture required to achieve good results.
