

Carpet Cleaning North Bay Firm Specializes in Persian And Wool Carpet Services

March 20, 2017

March 20, 2017 - PRESSADVANTAGE -

The North Bay-based carpet cleaning firm offers the type of specialized services which homeowners need to maintain a fresh-smelling and clean carpet. The company provides expert care for wool carpets and Oriental rugs.

North Bay ON: Carpet Cleaning North Bay and Jim Shawera are pleased to announce that their carpet and rug services include special care for Orientals and wool rugs. These carpets represent a sizable investment in the asset value of the home and need to be treated with care. No harsh chemicals or damaging equipment can be applied, yet the fibers need to be cleaned in order for the floor covering to be free of dirt, mold, debris and organisms.

A fresh-smelling home is often the first indication that it is clean. Mold and other organisms, pet odors and food spills can cause unpleasant smells to linger in the air of the home. The same contaminants can cause illness in members of the household. They can be airborne contaminants such as mold spores, as well pollen and other allergens. Bacteria and germs can cause other types of illness, particularly if there are small children crawling or playing on dirty carpets.

Regular cleaning of carpets and rugs removes small particles of dirt which tend to have sharp edges. Over time, dirt particles can cut the fibers and can cause deterioration of the backing. Regular vacuuming is helpful, but many home machines are simply not powerful enough to remove the damaging particles from the fibers and backing. A vacuum treatment is not powerful enough to get dirt and other contaminants out of the carpet pad.

Any make and style of carpets, upholstery, area rugs and furniture in homes, offices, commercial buildings and even automobiles can be cleaned using the top carpet cleaning equipment and talented technicians. Tough stains and smells in the carpets are not a barrier to the work done by the professionals. CCNB has some of the best carpet cleaning services and carpet cleaning prices in North Bay, Sturgeon Falls and West Nipissing.

The professional team also cleans other surfaces such as hard surfaces, ceramic tile and mattresses.
