

Long Island Limo Company Tran-star Limo Was Voted Best Wedding Limo Company On Long Island 3 Years In A Row

July 02, 2015

July 02, 2015 - PRESSADVANTAGE -

Tran-Star Limousine, a limousine service in Deer Park, NY, has been voted best wedding limo company on Long Island for the third year running. The company, which has been in business for over 25 years, entered the wedding industry in 2008. Since then, they have won numerous awards for their quality and service. This is the third year in a row that they have won the Best Wedding Limo Company in Long Island award, something that they take great and justifiable pride in.

"We know limos and we know service", says Gregory Pitre from Tran-Star Limousine. "Having worked in this field for over 25 year, we now have over 100 vehicles on our books, from town cars to limos and from party buses to coach buses. Branching into the wedding industry was a risky step, but one we decided to stand behind all the way. We are so happy we did now, and even happier to see that our hard work is being recognized. And we couldn't have achieved this without our many happy customers."

The award they have now held for three years running is twofold. Firstly, they have held it through LIWeddings, a website that focuses on all the services required for weddings and wedding planners. The second is The Knot Best Weddings award, which is a similar business that helps people find only the best when it comes to their wedding planning.

To celebrate this award, the Long Island limo company is now offering new customers 10% off their first booking, be that for a wedding car, airport transportation, a night out on the town or any of the other services Tran-Star Executive offers. Additionally, Islander's Fans received 20% off. This is due to the various partnerships that Tran-Star Executive has been able to build over the years, which includes partnerships with NY Islanders and The Long Island Marriott Hotel & Conference Center.

One of the reasons why they have been able to win this award three years in a row is because the company is so focused on their customer service. They want to make sure someone's special day is truly a day to

remember for all the right reasons. That the company achieves this is strongly reflected in the various positive reviews they have received.

"I would highly recommend Tran-Star limo. We rented a limo for the bridal party and family to get to the venue and then a shuttle bus for our guests to get to their hotel", says Alexandra. "We were beyond satisfied with the service provided. Everything was clean and on time and all of the staff was extremely professional and courteous. They are very reasonable in price especially compared to any other limo company we looked into. The staff were very friendly and it was a pleasure to work with them. They made booking easy!"
