

# Pro Bike Grips Launched New Colors Onto The Amazon

*March 21, 2017*

March 21, 2017 - PRESSADVANTAGE -

SF Group in Pasadena, California, has recently launched new colors onto the Amazon marketplace for their bike grips. The company states that they now have white, black, red, yellow and blue colors available.

Nell Vincent with SF Group says, "The red color of these grips will look incredibly sleek on your bike."

The company states that the grips, which can be seen on Amazon at <http://amzn.to/2nDmsiD>, have a cushy surface and wide anatomical contoured design that will cut down vibration to relieve pressure. The company designs the grips from premium rubber grips and aluminum alloy inner ring, it will not irritate your skin, it's also sturdy and weatherproof.

"We want our customers to trust that our grips are safe," says Vincent Nell. "They feature a lock-on clamp at both ends to securely hold these grips on the handlebars."

Nell states that in addition, the grips are easy to install, simply just dip these grips in warm soapy water and slide them onto the bars, twist and turn using a towel for better traction.

The grips were launched onto the Amazon marketplace a short while ago and the company states that they were so very well received that they felt additional size were warranted. They have not indicated whether or not new colors will be added in the future. For now, customers can choose from the five colors available and the grips are currently available for purchase on the Amazon marketplace.
