

Dor Stopper Launched On Amazon

March 23, 2017

March 23, 2017 - PRESSADVANTAGE -

Pasadena, California based company, SF Group, has recently launched a new product onto the Amazon marketplace. The Dor Stopper is now available through the marketplace. Vincent Nell with SF Group says, "This product is a set of 4 pieces anti-skid door wedges with hook holder that holds any doors steadily in place for hours to allow air ventilation around the room."

The product which can be seen at <http://amzn.to/2n9f552>, is made of natural rubber materials. The material will not easily degrade, avoiding stinky scent in a long run. The stainless steel handle made it portable too. Vincent Nell also states this dor stopper works with any types of door from small to large at home, bathroom, theater, mansion, and stays on any sturdy floor surface such as tiles, wood finishing, etc.

"No more sudden doors slamming by the wind or poorly ventilated room that lacks air," says Vincent Nell. "With Dor Stopper, the 4 piece wedges will keep them open without leaving any marks that will ruin the door and floor." SF Group designed this product to be easy to install, simply just wedge the stopper under the door. Its downward force, now jammed upwards onto the doorstop, provides enough static friction to keep it motionless. More can be seen on the company's Amazon seller's page.
