Pasadena, California based company, SF Group, has recently launched a new product onto the Amazon marketplace. The Cute Egg Mold is now available through the marketplace. Vincent Nell with SF Group says, "This product contains 6 molds of Baby Bear, Cute Rabbit, Mini Car, Little Star, Love, and Ocean Fish that will come out perfectly defined, great way to get children to eat hard-boiled eggs."

The product, which can be seen at <http://amzn.to/2ncLec2>, is made of ABS materials. It is completely non-toxic, BPA free, and safe for health. These egg molds are non-stick and can handle temperatures of -4 to 248 degrees Fahrenheit just fine.

Vincent Nell also states this egg mold comes with size 3.07 x 2.6 x 1.8 inches; it's perfect for medium and large eggs and just right even for little hands.

"Housewife, chef, even kids while cooking are going to find it much more easy to make a cute shaped egg mold," says Vincent Nell. "Just put a hot or warm peeled hard-boiled egg in the center of the mold and click the lid shut securely, and leave it for about 10 minutes."

SF Group designed this product to be easy to clean, hand-wash these molds for the best care and maintenance. Just give them a good rinse with soapy water, and they will clean up well in a snap. More can be seen on the company's Amazon seller's page.
