

Local Flooring Contractor Refinishes Youth Home For Charity

March 22, 2017

March 22, 2017 - PRESSADVANTAGE -

Boca Raton Epoxy Flooring offers expert skills and products to home and business owners in the area. The epoxy flooring contractor recently provided a charity donation for a youth home refinish.

Boca Raton FL: Boca Raton Epoxy Flooring and Chris Lavin are pleased to announce that the epoxy flooring contractor has contributed its skills and products to refinish a local youth home floor. The firm is the leading provider for commercial and residential epoxy flooring for Boca Raton, Florida and the surrounding area. In addition to Boca Raton, the service area includes West Palm Beach, Jupiter, Boynton Beach, and Delray Beach. The company also serves Broward County cities such as Pompano Beach, Fort Lauderdale, and Hollywood.

According to Chris Lavin, "We have been in business for many years providing high-quality floor installations for warehouses, garages, clinics, and commercial buildings. Whether you want a new garage floor with dyed concrete floors or just want to repair a chipped, damaged warehouse floor with a metallic finish, you are in good hands. You will be completely satisfied with our free consultation and affordable plans for each type of flooring."

The professionals take care to educate the customers so they know which is the preferred option and how to make it last for them. Epoxy floor coating protects the floor with a long-lasting and aesthetically appealing appearance. The company stocks a variety of epoxy products which are suitable for those who want to create do-it-yourself epoxy flooring.

Epoxy flooring is a special type of coating made with resins. The product is used to enhance the durability of concrete flooring and increase the resistance to slips. Epoxy is aesthetically appealing. The product reduces stains or marks such as skid marks and tire marks.

Concrete flooring is relatively durable, simple and inexpensive. Adding an epoxy coating improves the aesthetics and extends the expected lifespan of the floor. The epoxy coating eliminates the safety risks posed

by cracked concrete and seams in the floor. Epoxy is easy to clean, even over large warehouse-sized spaces.
