The Billy Goat Offers New Synthetic Grass Options for Lawn Alternatives

March 27, 2017

March 27, 2017 -
Miami, Fla. ? The Billy Goat lawn experts, renowned for their quality landscaping in Miami, recently announced their new grass options for those uninterested in actual grass.

Miami?s cramped living quarters and urban appeal means less lawns. However, The Billy Goat is now offering their new grass product line for those that still want the beauty that greenery can provide.

Danny Macias said, ?The fake grass is great for people that want little to no maintenance, yet it looks just as beautiful as the real deal.?

With the new synthetic line, customers of The Billy Goat will have more options to select from when they create their landscape design in Miami. The landscaping company claims the new grass is perfect for indoor soccer fields or for houses with small yards.

The new grass looks and feels realistic and won?t require customers to cut or water it. With the Miami heat causing temperatures to soar, the new grass will be a great option for anyone that wants their yard to stay

consistent year-round.

?This will provide a choice that?s great for the young, elderly, or anyone that doesn?t want to spend hours each week doing lawn maintenance,? said Danny Macias.

The Billy Goat will continue to innovate in the industry and landscaping and lawn manicuring as the years continue. Their customer engagement and quality designs make them a proven leader in terms of quality and their passion to develop strategies and products to better help their clients is what puts them in such hard regard.
