

Previously Sold Out Spalon Tech Cellulite Removal Cream Back In Stock

June 17, 2015

June 17, 2015 - PRESSADVANTAGE -

Spalon Tech, a health and beauty company in Clearwater, FL, is happy to announce that their previously sold out cellulite removal cream is once again available on Amazon. It was recently sold out after a huge surge in customer demand depleted their inventory levels. As a way to say thank you to their returning customers they are making it available for just \$25.97 for a limited time. This is a savings of \$44, or 63% off.

"We couldn't believe how fast our product sold out!", says Andrea Welch from Spalon Tech. "When we first released it, we knew that it was one of the best products out there, but convincing the general public of this is often a lot of hard work. Our product just took off and we couldn't keep up! We have replenished our stock now and welcome all our customers back."

The product is made in the USA and uses a formula that is professional strength. The product is also not water-based, which sets it apart from many other similar products available today. Rather, the main ingredient in the cellulite removal cream is organic aloe, which provides extra hydration and moisture to the skin. Furthermore, it avoids any greasy, sticky feelings after it has been applied.

The ingredients have been designed to improve circulation in the skin.

As the product sold out, the positive reviews also started flowing in. "AMAZING. There truly is no other word to describe this cream", says Sara H. "I am 31 years old and have noticeable cellulite on the backs of my thighs and lower abdomen. I have recently lost 35+ lbs and unfortunately the lumpy look doesn't just disappear. I rolled the dice on this cream, having never used a cellulite cream before. I am so glad i did. My first application was this past Friday, it is now Monday and the difference is SIGNIFICANT."

Other ingredients in the Spalon Tech product include various antioxidants that help to reduce inflammation. Furthermore, it comes with algae extracts that include over 64 different vitamins and minerals. All of these work together to create beautiful and, most of all, healthy skin. The product is also designed to be easily absorbed, so it can get into the deepest layers of the skin.

Spalon Tech hopes that the special discounted offer available today will encourage more people to try out their cellulite cream and see the difference it makes to their skin.
