

Top Selling Washable Toddler Pillow Celebrating Its 1 Year Anniversary

June 25, 2015

June 25, 2015 - PRESSADVANTAGE -

Calla Creative, a business in Indianapolis, IN is celebrating their washable toddler pillow's first anniversary. To celebrate this, they are currently offering it at a 42% discount on Amazon, meaning it costs just \$39.99, instead of the usual \$69. It is hoped that this will encourage even more parents to provide their toddlers with a comfortable and safe pillow.

"Parents tell us their favorite part of the Calla Pillow is how great the pillow comes out after washing it", says Jennie Mentz from Calla Creative. "They also appreciate the natural, organic cotton covering and knowing that their child is sleeping safe; free from chemicals and flame retardants. It puts a smile on my face every time a mom sends us an email thanking us for our craft."

Indeed, all over the globe parents are now starting to give their kids their own pillows. The Calla Pillow is one of the best organic kids pillows available on the market today. It is covered in organic cotton that is completely free from chemicals including flame retardants. Furthermore, it is super soft for added comfort for

the child. The pillow also comes with a full 3 year guarantee, as Calla Creative stands 100% behind the quality of their product.

The pillow comes in a sateen weave case, and is filled with Calla Fill, a special blend of fully hypoallergenic, cluster poly fiber. None of the elements of the pillow contains herbicides, pesticides, flame retardant chemicals or fungicides. It is also made in this country in an effort to support the local economy. Calla Creative sources the cotton from farms in this country that are certified organic. This means that every element of the pillow itself is made in the USA.

The Calla Fill is an alternative to down, which is completely hypoallergenic and fully machine washable. This means that even toddlers with allergy sensitivities can use the Calla Pillow and know that the pillow won't contribute to allergies. Indeed, both the filling and the casing are fully hypoallergenic.

The sateen cover is also certified organic and fully washable. This is very different from the standard 200 thread count cotton shells found on most pillows. Rather, it is so soft, comfortable and quiet that a toddler could even sleep on it without using a pillowcase. Jennie and Jeremy Mentz have actually crafted this pillow for their own two year old daughter.

One of the things that sets it apart is that it is slightly smaller than a standard pillow, as it is designed for toddlers. At the same time, it is neither too soft nor too firm, designed specifically for children. The three year warranty covers the stitching, filling and casing of the pillow as Calla Creative designs product with parents who value durability in mind.
