

Elite Mechanical Systems Proud to Add Service Manager Jamie Brooks to the Team

March 29, 2017

March 29, 2017 - PRESSADVANTAGE -

Pensacola, Fla. ? Elite Mechanical Systems a lead leading company for air conditioner repairs in Pensacola, FL, has just added Jamie Brooks to staff as a plumbing service manager. With many years of experience and a great attitude, Brooks is a great addition to the team.

Brooks, who started plumbing back in 2008, already has over 10 years of experience in the industry. He?s worked in all types of facets from residential services to larger construction and commercial projects. Whatever the job is, Brooks can probably manage it.

?Having Brooks on our team, we?re more confident than ever that he?ll bring new ideas to the forefront of our business and improve our services for our customers,? Marilyn Ricks said.

Not only does Brooks have a ton of experience, but he also is accredited in water purification and filtration, green plumbing, rain harvesting, and other unique services. Over the years, Brooks has always found ways to improve his craft through certification trainings and research. That?s why putting him in the positing of plumbing service manager was no question at all.

Elite Mechanical Systems obviously plans to stay a leading company for HVAC in Pensacola, FL. In order to do that, though, the Elite Mechanical team must stay on par with industry trends and changes. Brooks will be a great manager and will take note of what customers want and need, so Elite Mechanical Systems is in good hands.

"Brooks has plenty of experience so we know that there's a thing or two that we don't know yet that we can learn from him," Marilyn Ricks said. "We're ready to see what he has to offer."
