

Carolina Choice Cleaning Expands Into Entire Pee Dee Area

March 30, 2017

March 30, 2017 - PRESSADVANTAGE -

Florence SC-based cleaning services offers premier residential and commercial cleaning for customers in Florence and the entire Pee Dee area. Quality cleaning services improve health for the home's inhabitants.

Florence SC: Carolina Choice Cleaning and Kelli Collins are pleased to announce that the team of experts can handle any size home or business in the Pee Dee area. The company professionals pride themselves on being extremely efficient and professional. They understand that a clean home is a healthy home. Customers in Florence, Darlington, Hartsville, Quinby, Lake City and other cities are part of the service area. The communities of Timmonsville, Sardis, Effingham, Claussen and Lamar are also included in the area where CCC responds to cleaning needs.

When there is a need for cleaning services Florence SC home and business owners can arrange for the tasks and frequency which fit the individual needs. The team of professionals can respond weekly, bi-weekly or monthly, as required. The customers can also request one-time deep cleaning. This type of cleaning is often requested for move-in or move-out services. Customers may also arrange for new construction cleaning services.

Another category of services which the company can perform is that of organization. Many homeowners live with clutter because they don't have the skills and experience to take care of sorting, cleaning, discarding and storing household goods. This clutter can result in duplicate purchases, simply because the user has forgotten where a particular item was placed. Excessive clutter can take up valuable storage space and can even pose a health and safety risk.

The professional organizer helps to identify and categorize items within a household which might be trashed, sold, donated or arranged more efficiently. Examples are out-grown or out-of-style clothing, children's toys and appliances. Most homeowners are surprised to learn how much more space is available in a well-organized home or apartment. Organizing may be particularly helpful before a home open house or a move to a new location. Moving costs can be reduced and the home may actually sell for more money, due to

its appearance.
