

Monika's Marketplace Product Recognized As Best Microwave Food Cover

May 16, 2017

May 16, 2017 -

Monika's Marketplace, based in Sanford, Florida, is proud to announce that their product designed for covering food while in the microwave oven has been recognized as the best microwave food cover as indicated by the hundreds of customer reviews on Amazon. The primary purpose of this food cover is to keep the microwave oven clean by avoiding splatters. Another advantage of using the cover is that food is kept warm for a much longer time after heating it.

A representative from Monika's says: "With this microwave cover, people won't have to worry about cleaning the insides for their microwave oven from the splatters that usually occur when heating food. Secondly, they can bring out the food still covered and this will allow it to remain warm for a much longer period of time."

In one microwave cover review, the Amazon customer says, "I had never heard of these until I watched my mother-in-law use one. Growing up, I always used paper towels or that thin clear plastic wrap you cover food with to put in the fridge.... I will never go back to that plastic wrap or paper towels to cover my food when I microwave."

The food cover measures 10.5" by 3.5" so that it can easily fit on regular sized dinner plates. It also has a top handle so that it would be easy to put the covered food inside the microwave oven and then take it out later. It is also dishwasher safe so cleaning would not be a hassle. Monika's Marketplace also wants to point out that the cover has been tested and certified to be free from BPA, which is a chemical that leaches from other plastic products and is believed to be harmful to health.

With the more than 600 customer reviews on Amazon that praise the qualities of the product, it is easy to see why it is considered to be the best microwave food cover. The almost 5 star rating for the product is a testament to the satisfaction that customers have experienced with this food cover.

Those who need more information can visit the Amazon page for the microwave food cover.
