

Fast Growing Silicone Lids Company Is Revolutionizing And Simplifying The Kitchen

July 09, 2015

July 09, 2015 - PRESSADVANTAGE -

Perfect and Simple Solutions, a company based in Rio Linda, CA, recently launched their silicone lids on Amazon. Since its release, it has received numerous positive reviews and it seems that the company's goal of revolutionizing and simplifying the kitchen has already been achieved. To celebrate, they are offering their silicone lids with a \$5 discount now through Amazon Prime Day.

"When we released our product, we fully believed in its quality", says Jeanette Fenton from Perfect and Simple Solutions. "However, to see this number of people avidly attesting to it in such a short period of time is more than even we could have expected. It is a great confidence booster and we really couldn't be happier. As a thank you, we will offer our lids with a \$5 discount now through Amazon Prime Day.

Indeed, although the product was launched just a few months ago, it has already received a top 20 ranking for their selling platform and consistently appears on page one for their item category on Amazon search. This truly highlights just how valuable the product is and how it helps simplify a person's life in the kitchen. Naturally, Perfect and Simple Solutions products are of high quality and the company is fully committed to providing excellent customer service.

Essentially, their silicone lids have been designed to revolutionize the way people prep and store food, creating a system that is healthier and easier than ever before. This is certainly what people have noticed about their purchases so far. "What a fantastic product", says S. Hutchins. "Not sure how I have managed without these lids in my life longer." Florie Brown echoes the compliment with "I thought these might be useful but these are great" Justin Blackburn, one of Amazon's top 500 reviewers, praised the silicone lid's function and versatility with "I was impressed by its ability to suction the lid to glass, but amazed by the power of the suction. You can lift up and it will literally lift the bowl or glass up with the lid, not fall off!"

One of the main focuses of Perfect and Simple Solutions is to help people make their food healthier and better for them. Too many people still use cling wrap to cover food for storage, and this is something that the company wants to move away from. Cling wrap is hard to use, has a tendency to shrink and touch food, does not always cover food properly and could actually be damaging to health.

"In the end... when you use our products, we want you to smile and say, that's perfect!", says Jeanette Fenton.
