

Bello Brands Adds New Colors To Its Top Rated Chalk Pens Sets

June 16, 2015

June 16, 2015 - PRESSADVANTAGE -

Bello Brands is known for their chalk markers. In response to a request from their customers, they have extended their sets. They now offer a pack of four white 3mm chalk pens, a single 3mm white chalk pen and a pack of 8 5mm color liquid chalk markers. It is hoped that this will help their customers make more intricate and beautiful chalk board labels.

"Our chalk pens have long been popular with people who like to decorate with chalk board labels", says Christina Vivo from Bella Brands. "However, we received numerous requests for more diversity. Some people wanted to move away from white and include colors in their design. Others struggled to use our regular liquid pens on smaller labels and wanted something more intricate. We were happy to oblige."

The pack of each chalkboard markers comes with a white, orange, purple, pink, green, blue, yellow and red 5mm marker. This is the standard marker width that is suitable for most chalkboard labels. The pure white pens have been released in a 3mm version for finer lines and marks, and it is now also possible to purchase a single of these pens. In order to introduce their new range, Bella Brands has also released them at a special discounted offer.

The set of colored pens is currently available at a 40% discount for just \$17.97. The pack of white fine pens has been discounted by 13% and now costs \$12.97. Finally, the single fine white chalk pen now costs \$5.27, a discount of 34%. This offer is available for a limited time only and hopes to encourage more people to test their products.

Those who have purchased the chalk pens so far have been full of positive praise. "These markers have proven to be ideal for many applications", says Eva Shar. "We have used them to decorate bathroom mirrors, windows and our sliding door for a birthday party as well as having fun on a friend's car wishing him a "Happy Birthday." They are very easy to clean up with but a damp cloth. I highly recommend them as not only are they fun, but they are useful too."

Chalk labels and liquid chalk pens have become increasingly popular over recent years. One of the reasons for this is that the vintage chic look is very much in fashion and chalk labels are perfect to create that look. Additionally, more people are interested in crafting things in their home themselves, either for their own decorations or as a present or even for use in a small business. Bella Brands wants to assist those who do want to create beautiful and unique pieces the opportunity to do so in an affordable and easy manner.
