Walnut, California based company, Protiga Group, has recently launched a new product onto the Amazon marketplace. The company?s Mr Beard Comb is presently available through the marketplace. Sarah Dykes with Protiga Group says, ?This product is great for detangling wet growth and neatening dry hair.?

The product which can be seen at http://amzn.to/2mOfwTg is made from 100% sandalwood from start to finish. ?This product has much finer quality than combs or brushes sold on the market,? Sarah Dykes says.

Dykes also states that this product won?t demage facial hair like other wood brushes. Sarah Dykes adds, ?This product is anti static and distributes the skin oil on the beard to ease skin irritation by moisturizing it.? More can be seen on the company?s Amazon seller?s page.
